# ECOPROTECT OUR WORLD

Star Linen UK have created an Eco pledge. Our main aim is to ensure we are doing all we can to protect our beautiful planet. This pledge will continue to evolve and grow with us.

The Star Linen UK building's heating system is fuelled by **waste wood**, the fuel is fed into the boiler and burnt at high temperatures to produce heat, or thermal energy.

This thermal energy is transferred to a heat exchanger which provides heat for our warehouse and offices.

### IMPROVING THE ECO STATUS OF OUR PRODUCTS

**40%** of products sold in 2019 were **manufactured i**n the **UK** – cutting down on transportation, reducing our carbon footprint.

All UK products are transported on lorries that are **back filled**, so no container travels empty, improving our efficiency.

All products packed at our warehouse will be dispatched in biodegradable bags and 100% recycled cardboard boxes.

All our catalogues will be sent out in compostable bags and are printed using FSC (Forest Stewardship Council) certified paper.

## **ECO FRIENDLY PRODUCTS**

Look out for our Eco icon, to let you know that a product has been created in an environmentally conscious manner, such as our Eco duvet and pillow on page 37, made from 100% PET plastic bottles, or our Eco packaged biodegradable shower accessories and refill dispensers on page 92.

### **OUR PARTNERSHIPS**

## **DPD Parcel Delivery**

DPD group is committed to making every parcel delivered carbon neutral.

The reduction initiatives to improve the efficiency of our transport network include; tour optimisation, the deployment of innovative solutions, like Predict or Pickup, the addition of alternative fuel vehicles or the incorporation of suitable vehicles such as double-deck or long combination trucks.

**480** double-deck trucks to optimise loads

**5%** of total air freight on short-haul flights

**5 million** parcels transported on an alternative energy vehicle

**50%** of the delivery fleet less than 5 years old

## Partnership With TFR Group

TFR provide a sustainable outlet for a difficult waste stream, they divert 100% of the pillows and duvets they process from landfill in the LIK

Working with the UK's businesses and local authorities to recycle and re-purpose duvets and pillows. Polyester filling is removed from the pillows and duvets and recycled and turned into pads that are used in mattresses, kevlar vests or made into new polyester wadding. The covers would be shredded and would be combined with other fibres and made into soundproofing boards for the automotive industry.

Anything that cannot be recycled is shredded and burnt by power plants or cement factories and this is called "Energy from Waste".

## WEIGHT AND THREAD COUNT

Thread count is the density of threads per square inch: generally, higher thread counts mean a softer and smoother feel. Our standard bed linen ranges from 130 to 400 thread count. Weight can significantly affect how your sheets feel, lightweight and breathable or warm and soft.

## **WEAVE**

This important step determines the final texture. Plain weave gives a matt finish, sateen gives a subtle sheen and woven is extra smooth.

## COTTON

Cotton is naturally breathable and gives the sheets a smooth cool feeling. The extra length fibre creates a soft, smooth handle with superior strength and durability.

## POLYCOTTON

Our polycotton ranges are a great choice for busy hotels. It's comfortable, affordable, easy to process and keeps its shape and colour over time.

## 70 COTTON 30 POLYCOTTON

This is a very popular choice for laundries and is also known as cotton rich. The high cotton content ensures that the product is soft, breathable and smooth and the polyester ensures that it is durable and quick drying.

This beautiful **400 thread count** sateen bed linen will add a touch of luxury to any bedroom. As well as looking fabulous, it also feels wonderfully soft against your skin. Flat sheets feature a beautiful pleat along the hem to enhance the finish.

## FLAME RETARDANT

All of our beds conform to BS 7177 Medium Hazard (Crib 5) Fire Regulations. This regulation means that the beds have been declared safe for use in many commercial settings such as Boarding Schools, Halls of Residence at Universities and Colleges, Leisure Parks, Chalets, Hospitals, Hostels, Hotels and many more.

### **FILLING**

We opt for multi layered mattress fillings. Each layer brings another layer of comfort, support and structure to the mattress, allowing for a comfortable nights sleep every single night. Our special combination of filling also means our mattresses are durable and long lasting, meeting the needs of even the busiest hotels.

## POCKET SPRING

Pocket springs are the spring type of choice in all the high-end beds. The springs are individually nested so each sleeper on the mattress will receive support based on their own weight and sleeping style.

Pocket spring mattresses contain individual springs all layered next to each other, these springs act individually and give your mattress something we call anti-roll.

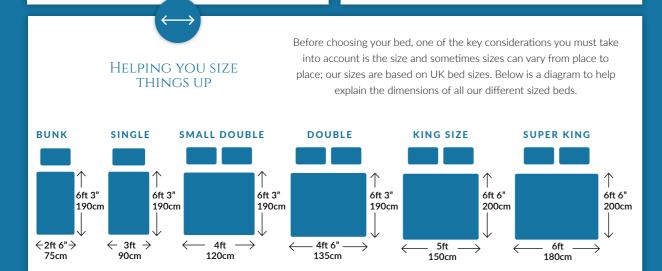

With a pocket spring each person receives individual support based on their position, the more weight applied in certain areas will have the affected pockets reacting to the load and supporting your body.

## **OPEN COIL**

Open coil spring units consist of columns of springs all connected together to create the main interior of your mattress, the gauge of these coils determine how hard or soft your mattress will be, for example, a 12 gauge spring will be firmer than a 13.5 gauge spring. For clarity gauges work a bit back to front with open coil models, the smaller the gauge the firmer the spring.

But the spring is only half the story, we also have to take into consideration the fillings layered on the spring that will essentially give your new mattress its overall feel under your body. Open coil springs are generally great value for money.

The Naples is our first **pocket sprung** and **memory foam** mattress. A favoured model in the hospitality industry, meeting BS7177 source 5 standards. At 9 inches deep the Naples offers a medium tension.

The pocket springs and memory foam work together to contour to the shape of your body providing high levels of comfort, support and healthy postural alignment.

The memory foam actively responds to heat and pressure to contour to the shape of your body, allowing the surface to evenly distribute body weight, provide pressure relief, alleviating any stress points and provide optimum levels of support.

The combination allows motion isolation and prevents disturbance between individuals allowing for a restful sleep.

A no-turn mattress, the Naples is easy to maintain with its handles to help with regular rotation. Vented for moisture control. The Naples has a quilted knit top for a cosy feel.

This is a contract quality hotel bed and conforms to **BS 7177** Medium Hazard (Crib 5) Fire Regulations.

# ECO DUVET

The filling is made by breaking down 100% PET plastic bottles to produce a smooth soft microfibre filling which gives you the feeling and drape very much like down but is 100% hypoallergenic. Making each 10.5 tog duvet uses 120 plastic bottles which means that is 120 bottles that have been saved from landfill per duvet. The beautifully soft microfibre cover has also been produced using 100% recycled materials that are GRS certified (Global Recycle Standard). To ensure that we are providing a 100% recycled product we have designed a reuseable microfibre bag to hold the duvet.

WEIGHT AND TOG All duvets are available in single, double, king and super king. All our duvets come in a 10.5 TOG which is a great all-rounder and is considered a duvet for all seasons. If you require something warmer the Hilltop is available in 12 and 13.5 TOG. Remember that TOG relates to warmth and not weight.

## CONSTRUCTION

Boxed wall construction means that the filling is held in individual boxes, allowing for even distribution and preventing cold spots. Channel stitched means that instead of sealed boxes the duvet features vertical channels. This prevents cold spots along seam lines but does allow vertical movement of the filling, meaning it can thin out at the top during warmer months. A wave channel stitch works in the same way but the channels form a wave shape and this restricts vertical movement slightly more than the standard channel stitch.

## Cover

Cotton is a breathable fabric making it great at absorbing moisture and feels wonderfully soft and cool to touch.

Our T230 and cambric cotton covers give a luxurious finish to the duvet and with a feather product stops the filling from coming through the cover. Microfibre covers give the duvet a smooth and cool outer. As well as feeling great, the microfibre cover looks fantastic with a bright white finish. Polycotton covers are extremely durable and long lasting, and great for those establishments that want a machine washable option. If you want anti-allergy look out for our hypo-allergenic Clarence duvet, anti-allergy treated for extra protection.

## HOLLOWFIBRE

The 'hollow' space between the fibres helps to ensure that the duvet is breathable and also means it's lighter than many other comparable duvets filled with alternative synthetic fillings. If you want a warm yet breathable and light duvet hollowfibre is it.

## **MICROFIBRE**

Microfibre duvets have very fine fibres which are tightly woven and without the hollow space. Microfibre duvets offer the ultimate warmth due to their tightly packed fibres. They are lighter than natural but heavier than hollowfibre, so if you are looking to mimic our natural fibre microfibre is a great choice.

## Feather & Down

The high feather content makes the duvet feel heavy and luxurious. 15% down content provides excellent thermal performance with little added weight creating a warm, sumptuous duvet.

### HOLLOWFIBRE

The benefits of a hollowfibre pillow filling is that they are great value for money. The material requires low maintenance as it is usually machine washable and easy to dry. It doesn't require as much fluffing and re-arranging as some natural products do. It is also lightweight and breathable.

### MICROFIBRE

Microfibre pillows are great value for money and are a quick drying easy to maintain product. The fibres are woven more tightly than hollowfibre and are therefore more supportive giving a soft, silky and luxurious feel, whilst being easy to maintain.

## BALL FIBRE

The original fibre passes through a process that opens the fibre before turning it into small round shaped balls, it is an economic alternative to real feather and down giving superior comfort and touch to the end product.

## FEATHER & DOWN

This natural filling means that pillows feel sumptuously light and they are firm, but soft. They mould comfortably around the head and shoulders. A high quantity of feathers means the pillow feels luxurious and the down makes it warm and soft.

Our most luxurious feather pillow, the super soft down ensures that this pillow is incredibly light and the addition of the goose feather means that not only is this pillow extremely soft, it is also supportive.

## PRO ENCASEMENT

The CleanRest PRO zippered mattress encasement is the industry leader for long term "proactive" protection from spills, incontinence, allergens, stains, and bed bugs. The zipper is secured by the patented Zip-N-Click zipper security device which locks the zipper in place to avoid accidental opens. The sleep surface is highly breathable to promote a cool nights sleep, and the side walls are designed with stretchy tear-resistant fabric for easy installation and a universal fit.

## PLATINUM ENCASING MATTRESS PAD

The new CleanRest PLATINUM Encasing Mattress Pad is a hybrid mattress encasement with a padded (quilted) sleep surface. The padded top has a 360 degree zipper and will zip onto the encasement base. CleanRest PLATINUM will replace up to 3 utility bedding products; the mattress encasement, the waterproof protector and the mattress pad. Along with improving your guests sleep experience, this product is designed to lower the cost of utility bedding by reducing the number of products you hold in inventory.

## PILLOW PROTECTORS

CleanRest's Envelope Style Pillow Protector helps to

provide protection against harmful allergens, dust mites and wetness by utilising a breathable and patented MicronOne luxury fabric. Dust mites and allergens have been known to create havoc in the respiratory system throughout the night resulting in a less than optimal breathing environment and loss of sleep - making this pillow protector a smart choice when seeking to improve your guests sleep hygiene.

Best of all, the Envelope Style Pillow Protector is easy to install and to remove for machine washing.

Best for luxury properties where comfort is a primary performance criteria.

## **ABOUT ZIP-N-CLICK:**

The patented Zip-N-Click bed bug blocking zipper enclosure is a certified feature used to fortify the most vulnerable place of the mattress encasement to bed bug infestation, the small gaps and crevices near the zipper clasp. Zip-N-Click is the only zipper protection device to snap shut, guaranteed proper closure, while our competitors use flaps of Velcro'd fabric which have a reputation of becoming a hiding spot for bed bugs.

## ABOUT MICRONONE FABRIC:

MicronOne allergen barrier fabric is known to allergen sufferers as the go-to choice to alleviate night-time allergic reactions from allergens stuck in your mattress or pillow. MicronOne, used in all CleanRest bedding protection products, shrinks the fabric pore size to a microscopic 1 micron, which stops all allergen particles like, dust mites, pet dander, mould spore, micro-toxins from passing to or from the mattress or pillow.

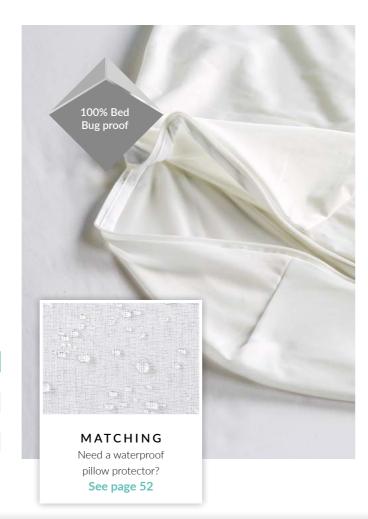

Chartwell provides total mattress protection, is waterproof and 100% bed bug proof.

- 2. These Terms and Conditions will be deemed to have been accepted by you when you accept them or the quotation or from the date of any delivery of the Goods (whichever happens earlier) and will constitute the entire agreement between us and you.
- 3. These Terms and Conditions and the quotation (together, the Contract) apply to the purchase and sale of any Goods between us and you, to the exclusion of any other terms that you try to impose or incorporate, or which are implied by trade, custom, practice or course of dealing.

- 4. A "business day" means any day other than a Saturday, Sunday or bank holiday.
- 5. The headings in these Terms and Conditions are for convenience only and will not affect their
- 6. Words imparting the singular number include the plural and vice-versa.

- 7. The description of the Goods is set out in our sales documentation, unless expressly changed in our quotation. In accepting the quotation you acknowledge that you have not relied upon any statement, promise or other representations about the Goods by us. Descriptions of the Goods set out in our sales documentation are intended as a guide only.
- 8. We can make any changes to the specification of the Goods which are required to conform to any applicable safety or other statutory or regulatory requirements.

- 8. The price (Price) of the Goods is set out in our quotation current at the date of your order or such other price as we may agree in writing.
- 12. If the cost of the Goods to us increases due to any factor beyond our control including, but not limited to, material costs, labour costs, alteration of exchange rates or duties, or changes to delivery rates, we can increase the Price prior to delivery.
- 12. Any increase in the Price under the clause above will only take place after we have told you
- 12. You may be entitled to discounts. Any and all discounts will be at our discretion.
- 13. The Price is exclusive of fees for packaging and transportation / delivery.
- 14. The Price is exclusive of any applicable VAT and other taxes or levies which are imposed or charged by any competent authority.

#### Cancellation and alteration

- 15. Details of the Goods as described in the clause above (Goods) and set out in our sales documentation are subject to alteration without notice and are not a contractual offer to sell the Goods which is capable of acceptance.
- 16. The quotation (including any non-standard price negotiated in accordance with the clause on Price (above) is valid for a period of 30 days only from the date shown in it unless expressly withdrawn by us at an earlier time.
- 17. Either of us can cancel the order for any reason prior to your acceptance (or rejection) of the

#### Payment

19. We will invoice you for the Price either:

any such amount in whole or in part.

- a. on or at any time after despatch of the Goods; or
